Afra Oil is recognized as one of the pioneers in the edible oil industry in the country, driven by its knowledge and experience. Focusing on the entire value chain, from sourcing high-quality oilseeds to producing premium edible oils and distributing products widely, Afra Oil plays a significant role in meeting the country's oil needs. Afra Oil's key activities include sourcing, storage, oil extraction, refining, processing, packaging, storage, and distribution of edible oils.

Navid Khalije Fars Oil Extraction Company

Navid Khalije Fars, equipped with extensive facilities, is engaged in oil extraction and refining, hydrogenation, fractionation, degumming, and lecithin production. Given its vast production capacity, supporting facilities, and port unloading and loading capabilities, it is recognized as the largest edible oil production unit in the country.

Location: Imam Khomeini Port

Regional Leader: Covering an area of 25 hectares, Navid Khalije Fars is the crown jewel of Afra's Integrated Food Value chains holding. This national project in southern Iran is currently in operation at various stages of design and development. The operation of the factories with their supporting facilities in Imam Khomeini Port is one of the highlights of this complex.

Production Capacity: As a group of factories in Imam Khomeini Port, Navid Khalije Fars has remarkable capabilities:

- **Oilseed processing:** Four oil extraction phases with a total daily capacity of 11,000 tons
- **Grain storage:** Grain silos with a storage capacity of 400,000 tons of various grains
- **Job creation:** Directly employing over a thousand people in the complex's operational section
- **Supporting Infrastructure:** The complex has extensive infrastructure, including:
 - Raw oil storage facilities (130,000 tons) and grain storagewarehouses (170,000 square meters)
 - Oil refining and packaging in 3 phases with a total daily capacity of 1,150 tons
 - Fractionation plant with a total daily capacity of 1,000 tons
 - Lecithin and degumming production plant with a daily capacity of 20 tons

Operational status: Ready to start and operate

Quality Assurance: Adherence to Iranian national standards for product quality.

Golbahar Vegetable Oil

Golbahar Vegetable Oil primarily specializes in the refining and packaging of edible oils, focusing on B2B (business-to-business) and custom-formulated oils in various weights for industrial and commercial use.

Location: Ivanki Industrial Town

Production Capacity: 300 tons

Pakdideh Production and Packaging

Pakdideh excels in the production and packaging of various processed edible oils. Their product range includes bakery oils and vegetable butter, available in diverse weights and packaging.

Location: Capital Industrial Town

Production Capacity: Equipped with five production lines with an annual production capacity of 100,000 tons

Employment: Directly employs 350 people

Quality Assurance: Has obtained numerous product quality certifications, including:

- Iranian National Standards
- HACCP
- ISO 9001 (Quality Management System)
- ISO 22000 (Food Safety Management System)
- Halal Certificate

Pak Mehr Padideh Company

Pak Mehr Padideh Company specializes in the production of various processed bakery oils, including specialty shortenings, vegetable butter, offered in a wide range of weights and packaging.

Location: Imam Khomeini Port

Production Capacity: Equipped with 4 production lines with an annual production capacity of 270,000 tons
