

Afra Protein is a subsidiary of Afra Integrated Food Value Chains Holding, encompassing various segments of the protein value chain. Afra Protein's activities include the production of small and large livestock, poultry and aquaculture (grandparent, parent, layer, pullet, and broiler), as well as related industries such as slaughterhouses, packaging and processing centers, and the production of feed for livestock, poultry, aquaculture, and full-fat soy, with the aim of ensuring food security in the country.

Afra Integrated Food Value Chains Holding is one of the largest food processing companies in the country. Its mission is to manage and develop the supply chain of grains, oilseeds, proteins, and sugar, as well as creating synergies among them. The company aims to ensure a reliable supply of high-quality raw materials through continuous optimization and strategic efforts.
